

ACIMALL OUTLOOK

For the third time, the Acimall Studies Office has processed the statistics about the most significant companies in the industry. A recurrent overview we offer to our readers at the beginning of a new year.

Xylon entrusted the Acimall Studies Office with the production of an interesting ranking of the economic performance of wood-related industries, including "**Woodworking machinery and tools**", "**Production of wooden furniture**", "**Production of wood-based panels and semi-finished materials**", "**Production of wooden doors and windows**", "**Wooden houses and elements for the construction industry**" and "**Wood and furniture sales**".

BASIC REMARKS

The third edition of the **Acimall Outlook** starts again with a general overview of the companies that obtained the best "economic" results in 2012.

Table 1 includes the top 10 companies by turnover growth. Among these organizations, five companies are committed to the production of

woodworking technology and tools. The best performance has been achieved by **Capoferri Serramenti**, a company based in Adrara S. Martino (Bergamo) specializing in the production of wooden and metal doors and windows.

In **table 2** we considered another economic indicator, **Ebitda**, which analyzes the earnings of a company before interest, taxes, depreciation and amortization.

This special ranking does not include any company representing the woodworking machinery and tools' industry. For the rest, the ranking is dominated by wood-based panel and semifinished material manufacturers. Once again **Friuli Intagli spa**, based in Prata di Pordenone, takes the leading position.

In **table 3** we listed the top ten companies by **Roe**, the parameter measuring the Return (pos-

TABLE 1 - TOP TEN BY REVENUE GROWTH

| Rank | Company | Sales revenues 2012 (000 €) | Revenue variation 2012/2011 (%) | Employees 2012 | Sales revenues/employees (000 €) | Ebitda 2012 (000 €) | Roe 2012 (%) |
|------|---------------------------|-----------------------------|---------------------------------|----------------|----------------------------------|---------------------|--------------|
| 1 | Capoferri Serramenti spa | 20,882 | 96.23 | 103 | 20,882 | 1,847 | 4.8 |
| 2 | Bre. ma. Brenna Macc. srl | 12,379 | 52.16 | 50 | 13,153 | 77 | n.a. |
| 3 | Bongioanni srl | 4,884 | 50.04 | n.a. | 4,269 | -101 | -126.45 |
| 4 | Kronospan Italia srl | 37,453 | 48.22 | 45 | 44,92 | 728 | -15.51 |
| 5 | Comec Group srl | 6,825 | 45.32 | 27 | 6,375 | 636 | 23.61 |
| 6 | Manni spa | 9,169 | 38.40 | 55 | 8,345 | 343 | 9.1 |
| 7 | Sistem Costruzioni srl | 24,437 | 29.30 | n.a. | 24,829 | 1,180 | 0.87 |

n.a.= not available.

itive or negative) On Equity. **Giardina Finishing** ranks first, followed by Imal and Elmag. The top-ten ranking includes as many as five suppliers of woodworking technology and tools.

WOODWORKING TECHNOLOGY

Acimall is the Confindustria member association representing Italian woodworking machinery and tools manufacturers, thus it is proper to add a specific comment focusing on the industry. The analysis takes into account the top-50 Italian companies by sales revenues in 2012. Due to the lack of an Ateco 2007 code precisely identifying the activity of companies, the companies to be included in the ranking were selected by the Acimal Studies Office. The ranking does not include companies that – although they match the classification – experienced bankruptcy proceedings and arrangement with creditors in 2013.

Scm Group in Rimini reaffirmed its role of top Italian company by sales revenues with a turnover of 280 million Euros, followed by **Biesse** spa in Pesaro. As many as 47 companies recorded a turnover under 100 million euros, confirming once again that the domestic industrial system is made of small and medium enterprises.

Another key parameter for business size is the number of employees. Only 13 companies have a workforce exceeding 100 units (same result in

THE METHOD

The figures used in the rankings are taken from **Aida-Bureau Van Dijk** database, which includes all the budgetary data of Italian companies.

The production activity of companies has been identified from to the corresponding **Ateco 2007 code**.

Some companies have been included in a different business category, other than the activity specified in the balance sheet, based on patent and objective observation. Non-consolidated balance sheets have also been taken into account.

The calculation criteria are the following:

Revenue variation: it is the percent variation of sales revenues compared to the previous year.

Ebitda: it is a revenue margin that defines the earnings of a company before interest, taxes, depreciation, extraordinary components and amortization.

Roe: it is the percent ratio between net profits/losses and net assets.

Production value: it is the sum of net revenues, stock-in-trade variations and other entries.

TABLE 2 - TOP TEN BY INCOME MARGIN

| Rank | Company | Sales revenues 2012 (000 €) | Revenue variation 2012/2011 (%) | Employees 2012 | Sales revenues/employees (000 €) | Ebitda 2012 (000 €) | Roe 2012 (%) |
|------|------------------------------|-----------------------------|---------------------------------|----------------|----------------------------------|---------------------|--------------|
| 1 | Friul Intagli Industries spa | 326,542 | -5.55 | 1021 | 325,464 | 43,055 | 29.81 |

n.a.= not available.

2011), confirming the stability of employment trends in the industry.

Ebitda, the index of earnings margins, is positive for most of the companies. Yet, the absolute values of the index are not very high mainly compared to other sectors of the industry; only 10 companies out of 50 recorded a margin higher than one million euro in 2012.

Let's close with a remark: an analysis of such breadth and depth inevitably requires evaluations we have made honestly and with the specific purpose of providing an evaluation tool that is as clear as possible. Also in this edition, we might have made mistakes or inaccuracies. We apologize for that in advance and we are ready to report possible corrections to Xylon readers.
